

Put more than 400 years of combined AV and networking expertise on your team.

**Application and Technical Support: Get help when and how you need it.**

Free—Whether you buy or not.

Live—From our headquarters in Pittsburgh, PA

24/7—Call anytime, day or night.

Don't waste time and money with "almost" the right solution. We'll help you find the problem and get just what you need. For 36 years, we've been helping IT professionals solve tough connectivity problems. We can solve yours, too. Best of all, our pre-sales application support service is absolutely free, whether you buy or not.

Great Tech Support and pre-sales application engineering is just 30 seconds away at 724-746-5500 or [blackbox.com](http://blackbox.com).

*"Just want to say that Charles and Garrett helped us so much. A solution was found and Garrett, in particular, went above and beyond to help. Thanks. Our experience was refreshing."*  
 Judy Crawford  
 Sr. Desktop Technician, Siskiyou County

Our team of experts will work with you to find the right solution for you, including free design and integration services.

**On-line configurators and selectors: Find solutions fast.**

Quickly find exactly what you need with these interactive tools:

- Video Extender Selector
- CATx Cable Selector
- Fiber Cable Selector
- Custom Cable and Adapter Configurator
- KVM Extender Selector
- KVM Switch Selector
- Cabinet Configurator
- Wallmount Cabinet Selector

Find them all at [blackbox.com/go/Configurators](http://blackbox.com/go/Configurators).

Everything Behind the Screens

End-to-end infrastructure solutions for digital signage, kiosks, and video applications.

AV Distribution

AV Connectivity

AV Mounting & Enclosures

# Take your HD digital signage, kiosk, and/or video applications where they need to go with Black Box's end-to-end solutions!

Let our signage, kiosk, and video distribution experts help you find the right technologies to deliver pixel-perfect performance. With more than 400 years of combined expertise, Black Box can help you every step of the way.

We're your source for digital signage platforms, and we're the industry-leading provider of everything behind the screens. And we mean everything — AV splitters, extenders, switches, converters, scalers, enclosures, and more.

Plus we have all the cabling and accessories you need to integrate your video system into your existing IT infrastructure. Not only are we knowledgeable about today's latest AV distribution technologies, but we know IT networks, too. We've been handling IT for well over 30 years.

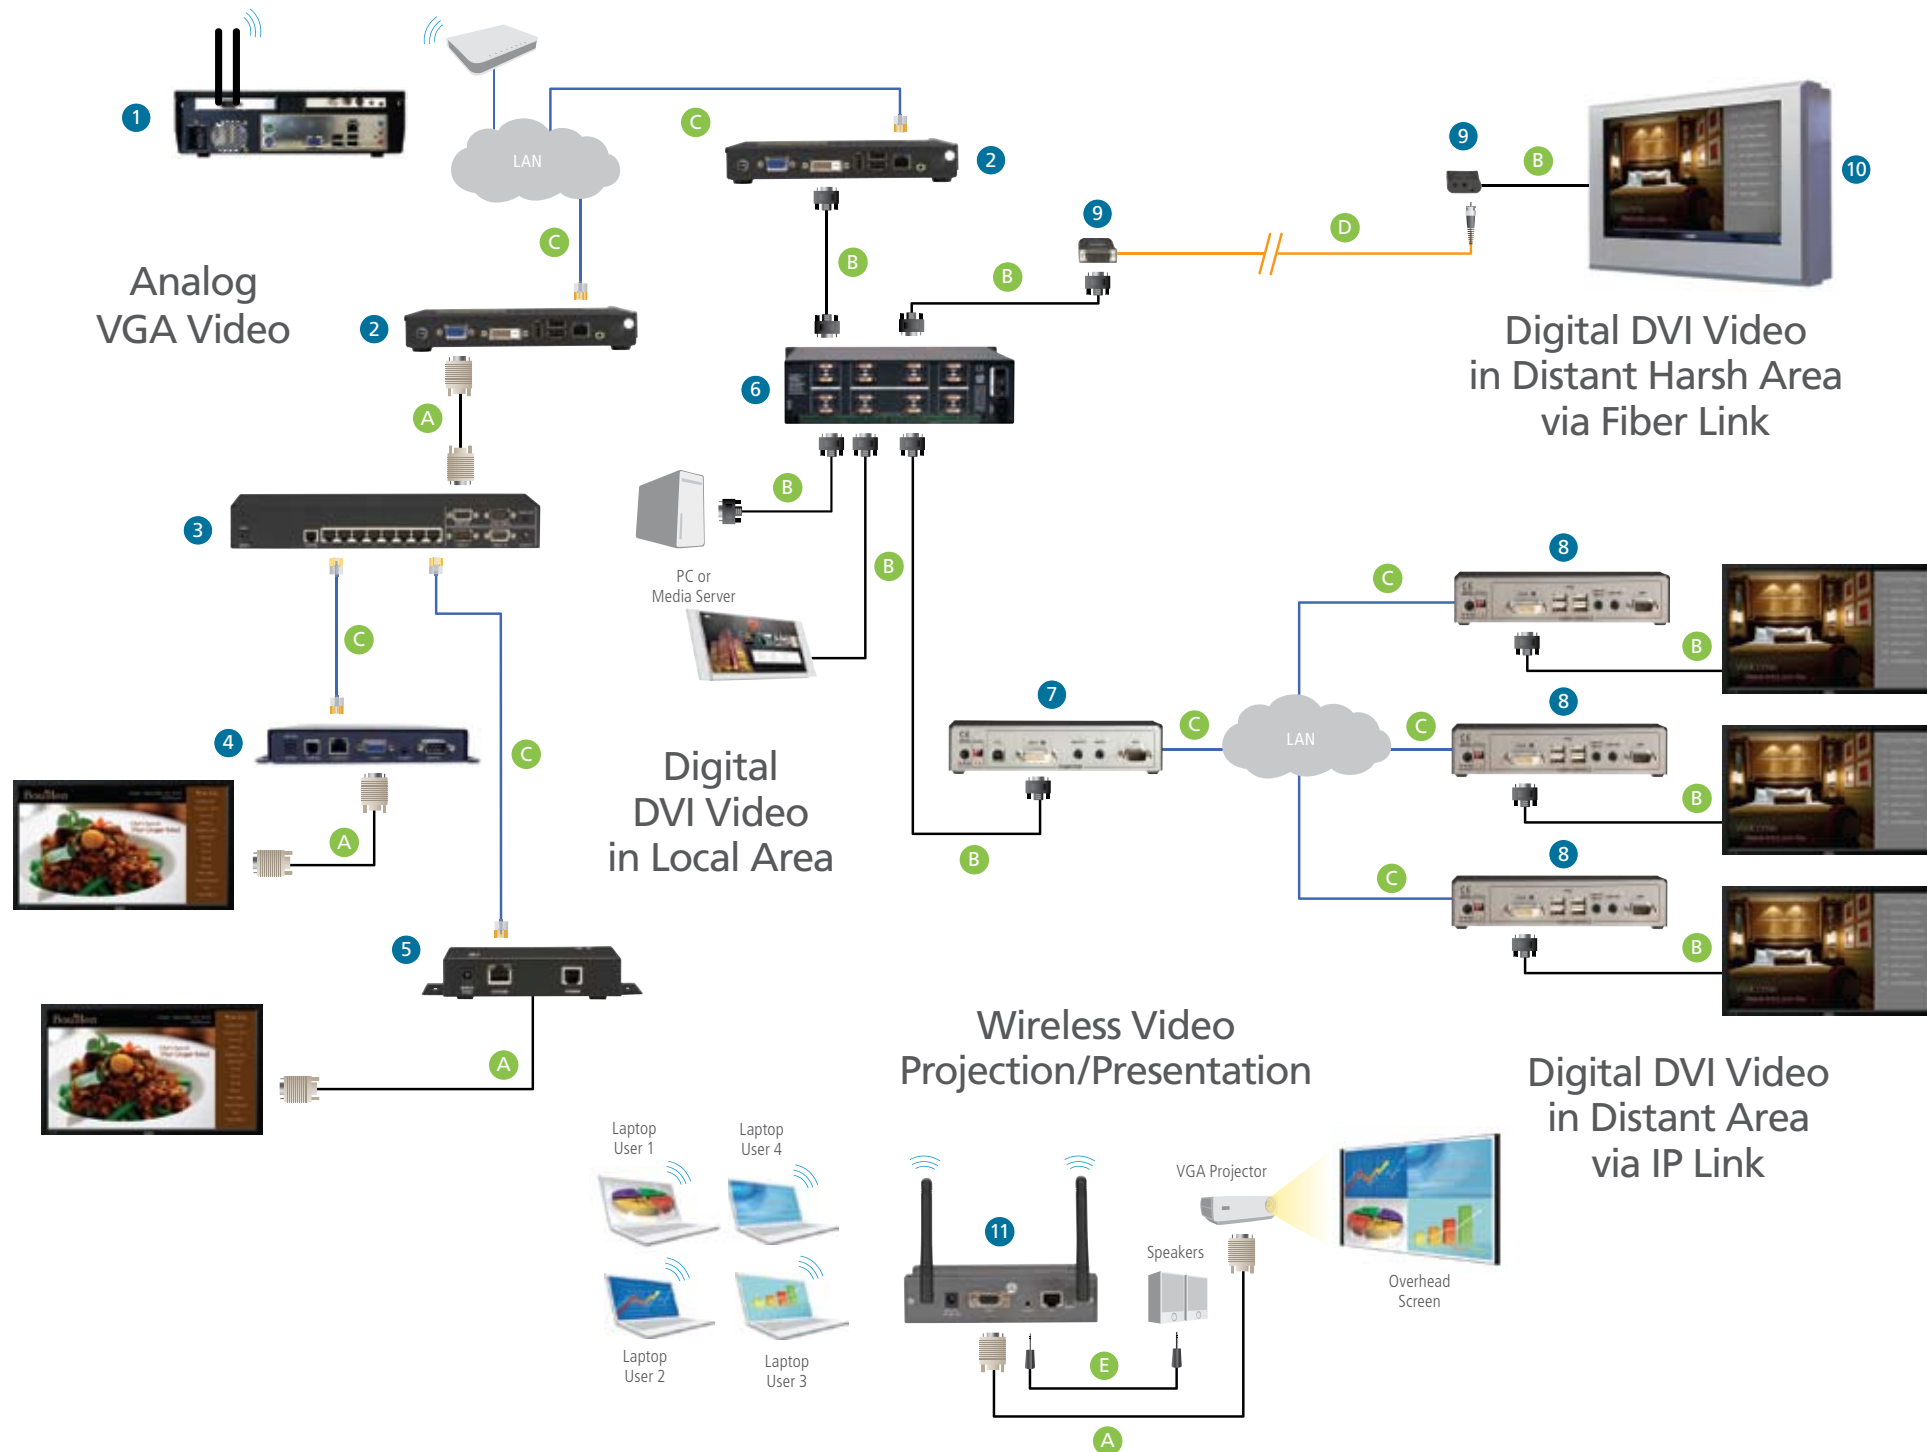

What's more, our huge product selection includes many solutions for extending HD video over IP networks without any video loss. The diagram below shows how just some of our products work together to distribute both analog and digital video.

## Just a Sample of Our Technologies:

- 1 **iCOMPEL™ HD Digital Signage Appliance (ICOMP)**  
Works as a publisher to distribute HD content over the LAN. Shown with the optional iCOMPEL Wi-Fi Module installed.
- 2 **iCOMPEL Subscriber Players (ICOMP03-H)**  
Receive HD content distributed over the LAN.
- 3 **HD View™ 8-Port Transmitter (AC3008A)**  
Broadcasts high-def analog VGA video (plus serial signals and audio, if necessary) over CATx cabling to multiple locations.
- 4 **HD View Receiver (AC3003A)**  
Receives VGA video (plus serial signals and audio) over CATx at distances of up to 360 feet.
- 5 **HD View Long-Range Receiver (AC3004A)**  
Receives VGA video (plus serial signals and audio) over CATx at distances of up to 1000 feet.
- 6 **DVI Matrix Switch, 8 x 8, with Audio (AVSW-DVI8X8)**  
Routes HD video from up to eight DVI sources to as many as eight DVI devices — with any input directed to any output.
- 7 **ServSwitch™ Agility DVI, USB, and Audio Extender over IP, Transmitter (ACR1000A-T)**  
Multicasts video (plus audio, if needed) over an IP network, distributing perfect digital video with no loss.
- 8 **ServSwitch Agility DVI, USB, and Audio Extender over IP, Receivers (ACR1000A-R)**  
Receive video (plus audio,) over an IP network, delivering high-quality DVI video content to digital screens.
- 9 **Mini Extender Kit for DVI-D and Stereo Audio over Fiber (AVX-DVI-FO-MINI)**  
Extends DVI video (and audio) up to 1.5 kilometers over a single strand of single-mode fiber (includes both a transmitter and receiver).
- 10 **Display Enclosure for 50"-52" Display (ENC-52)**  
Protects expensive displays and circuitry indoors and out without obscuring clarity of video (other sizes also available).
- 11 **Wireless Video Presentation System III (AC1132)**  
Turns a wired VGA projector into a wireless one, enabling up to 254 laptop users to wirelessly project video presentations from where they sit — up to 300 feet away!

## See [blackbox.com](http://blackbox.com) for our full selection of:

- Integrated software/digital signage players and platforms
- Extenders
- Splitters
- Switches
- Converters
- Scalers
- Mounts
- Enclosures
- LCD screens
- Touchscreens
- Video wall controllers
- Video calibration testers
- Surge protectors

## Cabling Available:

- A Analog Video**  
VGA, Component, S-Video, and others.
- B Digital Video**  
DVI, HDMI®, DisplayPort: standard or adapter cables.
- C CATx**  
CAT5e, CAT6, patch, bulk, premium, or value priced.
- D Fiber Optic**  
Single-mode, multimode, patch, bulk, or cut to length.
- E Audio**  
Deluxe RCA and 3.5-mm stereo and speaker wire.
- Coax**  
Bulk, standard lengths, customs for CATV and baseband runs.
- Serial**  
RS-232 standard or extended distance, office or industrial.
- CATx Specialty Patch**  
SpaceGAIN™ for tight areas and LockPORT™ for secure plug-ins.

- Plus:**
- Custom cables
  - Hard-to-find cables
  - Connectors and adapters
  - Wallplates and jacks
  - Cable testers and tools
  - And tons of other cabling accessories at [blackbox.com/go/cables](http://blackbox.com/go/cables).
