BLACK BOX®
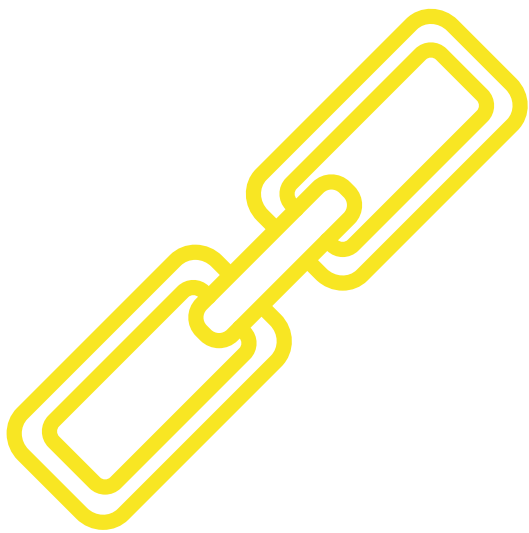

# WIRELESS PRESENTATION AND COLLABORATION SYSTEM MUST HAVE FEATURES
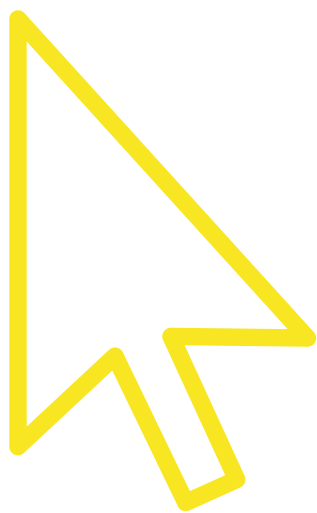

BLACKBOX.COM/COALESCE

CONNECT WITH ANY DEVICE

Meeting attendees should be able to join a session on any device via a Windows app, web browser, Chromebook, Android or AirPlay.
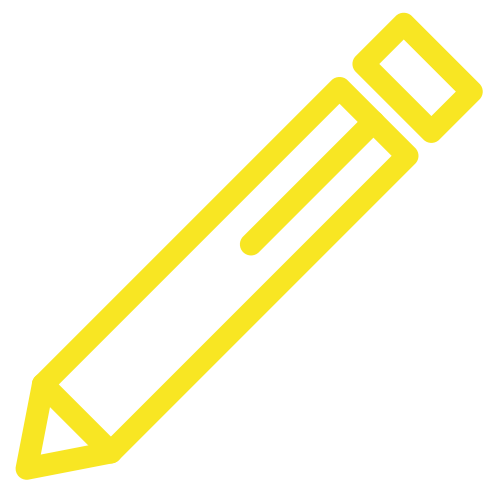

REMOTE CONNECTIVITY

Co-workers must be able to work together from anywhere on any device as if they are in the same room.

REACH THROUGH CONTROL

'Wirelessly,' take control of your laptop from the front of the meeting room. Remotely control your device to share content seamlessly to the display.

CONTENT CREATION AND SHARING

Whether it's file sharing, white-boarding or two-way annotation, a wireless presentation and collaboration system should facilitate content sharing and creation.
